SECTION 1 – GENERAL INFORMATION

Award/s: Bachelor of Health Science (Myotherapy)
Total course credit points: 96
Level: 3rd Year
Duration: 1 Semester
Subject Coordinator: Brent Cunningham (Brisbane campus)
Subject Credit Points: 4

Student Workload:
<table>
<thead>
<tr>
<th>No. timetabled hours per week:</th>
<th>No. personal study hours per week:</th>

Delivery Mode:
- Face to face
- 2 x 3 hours practical
- Full Time
- Part Time

Pre-requisites: MSTS221, MSTE311
Co-requisites: Nil

SECTION 2 – ACADEMIC DETAILS

Subject Rationale
This subject will enable the student to assess the effects of complex sports related injuries and pathologies in the human body and to diagnose and treat a wide variety of athletes and recreational non-athletes effectively, including specific exercise prescription to prevent further injury and achieve effective rehabilitation.

Learning Outcomes
1. Critically evaluate and manage the rehabilitation phase for sports injuries.
2. Critically assess and describe the effect of a range of joint injuries on elite athletes.
3. Demonstrate critical thinking and judgement to determine the specific mechanism of injury and its effects on the athlete.
4. Compare and contrast aetiologies and the clinical presentation for a broad range of sports injuries.
5. Develop and adapt treatment plans for specific population groups, including female athletes, the elderly and recreational non-athletes, based on an understanding of their specific characteristics and needs.

Assessment Tasks

### Field Emergency Treatment
- Concussion rules
- Bleeding
- Taping, bracing and splinting
- Other treatment

### Case studies

#### 7. Session 13
**Review**
- Responsibilities of the therapist
- Responsibilities of the athlete
- Overview of WADA and ASADA
- ASADA anti-doping training

#### Session 14
**Treatments used for musculoskeletal conditions in sports medicine**
- Analgesics, NSAIDs, traumeel, corticosteroids
- Prolotherapy, sclerosing therapy
- Antidepressants, local anaesthetic injections,
- Blood and blood products, nitric oxide donor
- Hot and cold therapies, electrotherapy, extracorporeal shock wave therapy
- Manual therapies and dry needling
- Surgery

**Treatment planning in multidisciplinary care**

#### NON-TEACHING WEEK (note that make-up classes may be scheduled in this week)
**Semester 1** - This aligns with the week after Easter so it may fall between weeks 6 to 8.
**Semester 2** - The break week falls between Weeks 7 and 8.

#### 8. Session 15
**Sports Related Head and Neck Pain**
- Acute wry neck
- Cervical acceleration-deceleration injury
- Head injury
- Acute nerve root pain

**Sports Related Thoracic and Chest Pain**
- Costovertebral and costotransverse joint disorders
- T4 syndrome
- Sternoclavicular joint problems

**Review of current evidence and case studies**

#### Session 16
**Sports Related Lower Back and Gluteal Pain**
- Intervertebral disc injuries
- Apophyseal joint injuries
- Spinal canal stenosis and acute nerve compression
- Spondylolisthesis and pars interarticularis stress fracture
- Sacroiliac joint injury
- Vertebral crush fracture
- Hamstring origin tendinopathy and ischiogluteal bursitis
- Proximal hamstring avulsion injuries
### 9. Session 17

**Sports Related Hip Pain**
- Femoroacetabular impingement
- Synovitis and labral tears
- Chondropathy
- Greater trochanteric pain syndrome
- Gluteus medius pathology
- Trochanteric bursitis

**Sports Related Anterior Thigh Pain**
- Quadriceps muscle contusion and strain
- Myositis ossificans

---

### 10. Session 18

**Sports Related Groin Pain**
- Adductor tendinopathy
- Iliopsoas tendinopathy and bursitis
- Abdominal wall pathologies
- Pubic bone stress
- Hip stress fractures

**Sports Related Posterior Thigh Pain**
- Hamstring muscle contusion and strains
- Biceps femoris, semimembranosus and semitendinosus tendinopathies
- Adductor magnus strain

---

### 11. Session 19

**Sports Related Acute Knee Injuries**
- Meniscus tear
- MCL, LCL, ACL and PCL sprains
- Articular cartilage injury
- Patellar dislocation

**Sports Related Knee Pain**
- Patellar and quadriceps tendinopathy
- Fat pad impingement
- Infrapatellar bursitis
- Synovial plica
- Baker’s cyst
- Iliotibial band friction syndrome
- Pes anserinus tendinopathy and bursitis
- Popliteus tendinopathy

---

### 12. Session 20

**Sports Related Leg Pain**
- Tibial stress fractures
- Muscle strains – fibularii, gastrocnemius, soleus

**Sports Related Achilles Tendon Pain and Acute Ankle Injuries**
- Achilles tendinopathy
### 11. Session 21
**Sports Related Ankle Pain**
- Tibialis posterior, peroneal and flexor hallucis longus tendinopathies
- Tarsal tunnel syndrome
- Sinus tarsi syndrome
- Anterolateral impingement

**Sports Related Foot Pain**
- Stress fractures of the region
- MTP joint sprain
- Sesamoid pathology

Review of current evidence and case studies

### 12. Session 22
**Sports Related Shoulder Pain**
- Strains and tendinopathies of the rotator cuff
- AC joint sprains
- Biceps tendinopathy
- Clavicle fracture

**Sports Related Shoulder Pain**
- Glenohumeral dislocation and instability
- Glenoid labral tears

Review of current evidence and case studies

### 13. Session 23
**Sports Related Elbow and Arm Pain**
- Extensor and flexor tendinopathy
- Medial collateral ligament sprain
- Triceps tendinopathy
- TFCC tear
- Carpal tunnel and tunnel of Guyon syndromes
- Ligamentous sprains of the fingers

**Sports Related Wrist and Hand Pain**
- Distal radius, scaphoid, hamate and lunate fractures
- Ligamentous sprains
- Scaphoid impaction syndrome
- De Quervain’s tenosynovitis

Review of current evidence and case studies

### 14. Session 24
**Sports Related Injuries of the Younger Athlete**
- Perthes’ disease
- Osgood-Schlatter’s lesion
- Sinding-Larsen-Johansson lesion
- Sever’s lesion
- Scheuermann’s lesion
- Other osteochondrosis and insertional conditions
  Review of current evidence and case studies
