Subject Name: Musculoskeletal Anatomy and Palpation 1
Subject Code: MSTA121

SECTION 1 - GENERAL INFORMATION

Award/s: Total Course Credit Points: Level:
Bachelor of Health Science (Acupuncture) 128 Core 1st Year
Bachelor of Health Science (Naturopathy) - 2014 128 Elective 3rd Year
Bachelor of Health Science (Myotherapy) 96 Core 1st Year

Duration: 1 Semester

Subject Coordinator: Paul Attenborough (Melbourne campus)

Subject is: Core or Elective as noted
Subject Credit Points: 2

Student Workload:

No. timetabled hours per week: 3
No. personal study hours per week: 2
Total hours per week: 5

Delivery Mode:
Face to Face
1 x 3 hour practical
(On campus)

Full Time
Part Time

Pre-requisites: Nil

Co-requisites: BIOH111

Special Resource Requirements:
Attire that allows effective palpation while acting as student model
One bath-sheet sized towel per student (Clinic towels must not be used)

SECTION 2 – ACADEMIC DETAILS

Subject Rationale
This subject enables students to develop palpation skill as an assessment tool in musculoskeletal examination and therapeutics. Students learn to palpate the surface of the body and locate and name bony landmarks, individual muscles, major joints and their ranges of motion. The student begins to develop professional skills of clinical interaction required in a manual therapy practice.

Learning Outcomes

1. Accurately describe anatomical regions and their movements using appropriate terminology.
2. Name, locate and demonstrate palpation of body structures using techniques common to musculoskeletal examination of the body.
3. Describe attachments and actions of the relevant muscles of the body.
4. Demonstrate palpation skills when carrying out musculoskeletal examinations on diverse body types.
## Assessment Tasks

</tbody>
</table>
|   | Muscular anatomy of the upper limb: pectoral girdle  
|   | • Palpation of muscles of the pectoral girdle to demonstrate location and actions  
|   | • Professional considerations regarding palpation over/near breast tissue  
| 7. | Mid-semester Practical Exam  
|   | **NON-TEACHING WEEK** (note that make-up classes may be scheduled in this week)  
|   | **Semester 1** - This aligns with the week after Easter so it may fall between Weeks 6 to 8  
|   | **Semester 2** - The non-teaching week falls between Weeks 7 and 8  
| 8. | Muscular anatomy of the upper limb: pectoral girdle and arm  
|   | • Palpation of muscles of the pectoral girdle and arm to demonstrate location and actions  
| 9. | Muscular anatomy of the forearm and hand  
|   | • Palpation of muscles of the forearm and hand to demonstrate location and actions  
| 10. | Muscular anatomy of the upper axial skeleton  
|   | • Palpation of muscles of the upper axial skeleton to demonstrate location and actions  
| 11. | Muscular anatomy of the lower axial skeleton  
|   | • Palpation of muscles of the lower axial skeleton to demonstrate location and actions  
| 12. | Muscular anatomy of the lower limb: pelvic girdle and thigh  
|   | • Palpation of muscles of the pelvic girdle and thigh to demonstrate location and actions  
| 13. | Muscular anatomy of the lower limb: leg and foot  
|   | Review  
| 14. | Non-Teaching Week/Practical Examination Week 1  
|   | Note that make-up classes may be scheduled in this week  
| 15. | Non-Teaching Week/Practical Examination Week 2  
|   | Note that make-up classes may be scheduled in this week  
| 16. | Final Examination Week 1  
|   | There is no final exam for this subject  
| 17. | Final Examination Week 2  
|   | There is no final exam for this subject
