

SUBJECT OUTLINE

Subject Name:

Nutritional Medicine Clinical Practicum 1

Subject Code:

NMDC313

SECTION 1 - GENERAL INFORMATION

Award/s:	Bachelor of Health Science (Nutritional and Dietetic Medicine)	Total Course Credit Points: 96	Level: 3 rd Year
Duration:	1 Semester		
Subject Coordinator:	Moira Bradfield (Gold Coast campus)		
Subject is:	Core	Subject Credit Points: 6	

Student Workload:

No. timetabled hours per week: 9	No. personal study hours per week: 6	Total hours per week: 15
--	--	------------------------------------

Delivery Mode:

Face to Face (On campus) 3 x 3 hours clinical practicum

Intensive Delivery (Summer School) Contact hours are delivered over 6 weeks with 3 x 6.5 hour days delivered per week
Content: Clinical practicum

Assessment: Condition Product Comparison - Week 3; Progressive Clinical Assessment - Weeks 3 and 6; Case Studies - Weeks 4 and 6

Full Time

Part Time

Pre-requisites: BIOE221, NMDC221, BIOS222, HMCL222, HMCL223

Co-requisites: SOCI221

Special Resource Requirements:

HLTAID003 Provide first aid (VET unit of competency)

LMS-based clinic induction and quiz

Professional Dress Standards as described by [Wellnation Clinic Student Handbook](#)

[Wellnation Clinic Student Handbook](#)

WWCC (or its equivalent) for the location in which subject is undertaken as per [Working with Children Check Policy](#)

Kit items include:

- Endeavour white clinic coat
- Measuring tape
- Otoscope
- Penlight
- Percussion reflex hammer
- Sphygmomanometer
- Stethoscope
- Thermometer
- Timing device

SECTION 2 – ACADEMIC DETAILS

Subject Rationale

Clinical students practise nutritional and dietetic medicine under the supervision of qualified practitioners in the Endeavour Teaching Clinics, by taking a secondary role in client assessment and care in partnership with a senior, primary practicing student. Practical application of holistic medicine clinical skills such as history-taking, education of the client about nutritional medicine and the general course of treatment, holistic medicine assessment techniques, pathology testing and conventional physical examination techniques, guide the student in actively participating in the development of an individual treatment plan. Background research on each client's condition and evidence-informed treatment options is conducted by the student between client visits. Clinical students apply holistic medicine theory and principles in case management with diverse clients and the range of acute and chronic conditions that present in our clinics.

Learning Outcomes

1. Participate in application of holistic medicine philosophy, principles, ethical and professional values, knowledge and skills to the assessment and management of clients in a clinical setting.
2. Critically evaluate diagnostic and treatment options based on totality of professional education thus far, along with review of relevant research, clinical experience, cultural considerations and client preferences to contribute to the construction of a suitable and effective treatment plan.
3. Display appropriate professionalism while maintaining a therapeutic relationship with the client when faced with ethical or boundary issues in clinical practice.
4. Observe and participate as a secondary practitioner in nutritional medicine consultations to assist in eliciting clinical data essential to establish appropriate client management options.
5. Apply appropriate written and oral communication skills to communicate information and knowledge in the area of client management and professional practice.
6. Acquire and consolidate knowledge of nutritional medicine practice management including Work, Health and Safety standards, office reception, clinic procedures, and dispensing.

Assessment Tasks

Type	Learning Outcomes Assessed	Session Content Delivered	Due	Weighting
Attendance (100% required)	N/A	N/A	Sessions 1-39	Pass/Fail
Condition Product Comparison written narrative (750 words)	1-2, 5	1-6	Week 6	10%
Mid-semester Progressive Clinical Assessment (rubric based)	1-6	1-6	Weeks 7-8	20%
2 Case Studies (1200 words each, suitable for publication)	1-2, 4-5	1-13	Weeks 8 & 13	30% (2 x 15%)
Final Progressive Clinical Assessment (rubric-based)	1-6	7-13	Week 13	40%

All written assessments and online quizzes are due at 11:55 p.m. and submitted through the LMS

The overall passing mark for this subject is 50%

Subject Content

Week	Clinical Practicum
1-13.	<p>Clinic practicum goes from Week 1 to Week 13 with a one week non-teaching week around Weeks 6 - 8 in Semester 1 (depending on Easter) or between Weeks 7 & 8 in Semester 2.</p> <p>Mid-semester reviews are conducted in Weeks 7 - 8 and students are presented with written and verbal feedback from each supervisor about their performance in clinic in relation to specified rubrics, and marks are aggregated to provide a single grade.</p> <p>Final reviews of clinical practicum are conducted in Week 13 and students are presented with further written and verbal feedback from each supervisor about their performance in clinic in relation to specified rubrics, and marks are aggregated to provide a single grade.</p> <p>In Clinical Practicum students are evaluated on their ability to apply their knowledge and skills in a professional manner. Therefore students should note that, although helpful, previous success in academic subjects does not guarantee success in Clinical Practicum.</p> <p>During this Clinical Practicum, students will practice under supervision either singly or in pairs:</p> <ul style="list-style-type: none"> • Conducting clinical consultations and observations • Good practitioner-client communication • Give short, oral presentations to supervisor and student peers in relation to client management and professional practice • Case taking • Clinical examination skills • Interpretation of biomedical and functional test results • Differential diagnosis • Developing individualised treatment plans • Appropriate referral • Presentation to supervisor and obtaining approval for treatment plan • Office management skills, dispensing and reception duties • Observing all clinic policy and procedure • Participating in debriefing sessions at the conclusion of each clinical practicum to identify any important issues
14.	<p>Non-Teaching Week/Practical Examination Week 1</p> <p>Note that make-up classes may be scheduled in this week</p>
15.	<p>Non-Teaching Week/Practical Examination Week 2</p> <p>Note that make-up classes may be scheduled in this week</p>
16.	<p>Final Examination Week 1</p> <p>There is no final exam for this subject</p>
17.	<p>Final Examination Week 2</p> <p>There is no final exam for this subject</p>
