

SUBJECT OUTLINE

Subject Name:

Chinese Clinical Medicine 5

Subject Code:

CMAC411

SECTION 1 – GENERAL INFORMATION

Award/s:

Bachelor of Health Science (Acupuncture)

Total course credit points:

128

Level:

4th Year

Duration:

1 Semester

Subject Coordinator: Dr Andrew Koh (Sydney campus)

Subject is: Core

Subject Credit Points: 2

Student Workload:

No. timetabled hours per week:	No. personal study hours per week:	Total hours per week:
3	2	5

Delivery Mode:

Face to face

2 hours lecture

1 hour practical

Intensive Delivery

Details:

Summer School - contact hours are delivered over 5 weeks with 2 x 4 hour days delivered per week.

Assessments: Written Assignment for intensive delivery is due to be uploaded by Sunday on week 3 of the Summer School period.

Practical assessment and Final Exam will be conducted in week 6 of the Summer School period.

Full Time

Part Time

Pre-requisites: CMAC223, BIOS222

Co-requisites: Nil

Special resource requirements: Two bath-sheet sized towels per student (Clinic towels must not be used)
Endeavour College approved Acupuncture Kit

SECTION 2 – ACADEMIC DETAILS

Subject Rationale

In this subject the clinical concepts, skills and judgements associated with traditional Chinese medicine (TCM) diagnosis and treatment of Eyes, Ears, Nose & Throat (EENT), mental health/psychiatry, smoking, weight loss and HIV/AIDS are presented. Learning initially focuses on a comparison of key disorders that are considered from both a Chinese medicine and biomedical perspective. Symptoms, signs, clinical assessments, investigations, and levels of practice evidence lead discussion around treatment prescription, prognosis and the practical acupuncture sessions where techniques are applied. By subject conclusion a holistic understanding of traditional Chinese medicine for the above disorders will have been developed.

Learning Outcomes

1. Evaluate and discuss the biomedical approaches employed in the diagnosis and management of EENT, psychiatric, addiction, HIV/AIDS and obesity disorders.
2. Analyse and apply skill in identifying and interpreting key data necessary to make an accurate Chinese medicine diagnosis of EENT, psychiatric and addiction disorders.
3. Research and develop a Chinese medicine treatment, prognosis, regime and prescriptions for EENT, psychiatric, addiction and obesity disorders based on TCM theory and the latest research.
4. Devise appropriate acupuncture treatment regime for quitting smoking and support and comfort for people with HIV/AIDS, based on the application of TCM theory and the latest research.

5. Demonstrate integration of appropriate occupational health and safety practices in TCM treatment of EENT, psychiatric, addiction, HIV/AIDS and obesity disorders.

Assessment Tasks				
Type	Learning Outcomes Assessed	Week Content Delivered	Week Due	Weighting
Continuous Skill Development (rubric-based)	1-5	1-13	1-13	Pass/Fail
Written Assignment (2000 words)	1-4	1-6	Sunday following Week 7	30%
Practical Assessment	1-5	1-13	Practical Exam Period	20%
Final Written Exam (2 hours)	1-4	1-13	Final Exam Period	50%

Subject Content		
Week	Lecture	Practical
1.	Introduction to TCM five sensory orifices disorders: <ul style="list-style-type: none"> • TCM Classification of ophthalmology and otorhinolaryngological diseases • Review anatomy of each organ: <ul style="list-style-type: none"> ○ Special physiology and relative pathological features of each organ ○ Common aetiology ○ Pathogenesis ○ Assessment ○ Diagnosis and treatment 	Key TCM eye, ear, nose and throat methods and techniques: <ul style="list-style-type: none"> • Acupuncture • Moxibustion • Cupping • Gua sha • Tui na • Electro acupuncture and • Laser acupuncture
2.	Disorders of the eye (conjunctivitis, dacryorrhea, xerophthalmia, and myopia): <ul style="list-style-type: none"> • Chinese and biomedical anatomy • Chinese medicine aetiologies • Chinese medicine pathogenesis • Clinical signs • Special testing • Imaging and investigations • Chinese medicine diagnosis • Biomedical diagnosis • Chinese medicine prescription • Cautions and contraindications • Level of evidence • Prognosis 	Assessment of the eye (conjunctivitis, dacryorrhea, xerophthalmia, and myopia,): <ul style="list-style-type: none"> • Clinical signs • Physical examinations and tests • Imaging and investigations Management of the eye (conjunctivitis, ptosis, dacryorrhea, myopia, sudden blindness, night blindness): <ul style="list-style-type: none"> • Acupuncture • Moxibustion • Cupping • Gua sha • Tui na • Electro acupuncture • Laser acupuncture
3.	Disorders of the ear (tinnitus, deafness, otitis media): <ul style="list-style-type: none"> • Chinese and biomedical anatomy • Chinese medicine aetiologies • Chinese medicine pathogenesis • Clinical signs • Special testing • Imaging and investigations • Chinese medicine diagnosis • Biomedical diagnosis • Chinese medicine prescription • Cautions and contraindications • Level of evidence • Prognosis 	Assessment of the ear (tinnitus, deafness, otitis media): <ul style="list-style-type: none"> • Clinical signs • Physical examinations and tests • Imaging and investigations Management of the ear (tinnitus, deafness, otitis media): <ul style="list-style-type: none"> • Acupuncture • Moxibustion • Cupping • Gua sha • Tui na • Electro acupuncture • Laser acupuncture
4.	Disorders of the nose (rhinorrhea, sinus, hay fever): <ul style="list-style-type: none"> • Chinese and biomedical anatomy • Chinese medicine aetiologies • Chinese medicine pathogenesis • Clinical signs • Special testing 	Assessment of the nose (rhinorrhea, sinus, hay fever): <ul style="list-style-type: none"> • Clinical signs • Physical examinations and tests • Imaging and investigations Management of the nose (rhinorrhea, sinus, hay fever):

	<ul style="list-style-type: none"> Imaging and investigations Chinese medicine diagnosis Biomedical diagnosis Chinese medicine prescription Cautions and contraindications Level of evidence Prognosis 	<ul style="list-style-type: none"> Acupuncture Moxibustion Cupping Gua sha Tui na Electro acupuncture Laser acupuncture
5.	<p>Disorders of the mouth (toothache and aphtha (mouth and tongue ulcers)):</p> <ul style="list-style-type: none"> Chinese and biomedical anatomy Chinese medicine aetiologies Chinese medicine pathogenesis Clinical signs Special testing Imaging and investigations Chinese medicine diagnosis Biomedical diagnosis Chinese medicine prescription Cautions and contraindications Level of evidence Prognosis 	<p>Assessment of the mouth (toothache and aphtha (mouth and tongue ulcers)):</p> <ul style="list-style-type: none"> Clinical signs Physical examinations and tests Imaging and investigations <p>Management of the mouth (toothache and aphtha (mouth and tongue ulcers)): Acupuncture</p> <ul style="list-style-type: none"> Moxibustion Cupping Gua sha Tui na Electro acupuncture Laser acupuncture
6.	<p>Disorders of the throat (sore throat and thyroid):</p> <ul style="list-style-type: none"> Chinese and biomedical anatomy Chinese medicine aetiologies Chinese medicine pathogenesis Clinical signs Special testing Imaging and investigations Chinese medicine diagnosis Biomedical diagnosis Chinese medicine prescription Cautions and contraindications Level of evidence Prognosis 	<p>Assessment of the throat (sore throat and thyroid,):</p> <ul style="list-style-type: none"> Clinical signs Physical examinations and tests Imaging and investigations <p>Management of the throat (sore throat, thyroid, parathyroid):</p> <ul style="list-style-type: none"> Moxibustion Cupping Gua sha Tui na Electro acupuncture Laser acupuncture
7.	<p>TCM theory of psychiatry (five emotions, seven emotions and five spiritual resources, psychology and personal development).</p> <p>TCM view of personality types, the place of mental cultivation and balance of the emotions in disease and health maintenance.</p> <p>Psychological Correspondences of the five phases</p>	<p>Key TCM psychiatric methods and techniques:</p> <ul style="list-style-type: none"> Acupuncture Moxibustion Cupping Gua sha Tui na Electro acupuncture Laser acupuncture
<p>NON-TEACHING WEEK (note that make-up classes may be scheduled in this week)</p> <p>Semester 1 - This aligns with the week after Easter so it may fall between weeks 6 to 8.</p> <p>Semester 2 - The break week falls between Weeks 7 and 8.</p>		

8.	<p>Disorders of TCM psychiatry (sleep, memory disturbances including dementia and psychosis (Dian Kuang)):</p> <ul style="list-style-type: none"> • Chinese and biomedical anatomy • Chinese medicine aetiologies • Chinese medicine pathogenesis • Clinical signs • Special testing • Imaging and investigations • Chinese medicine diagnosis • Biomedical diagnosis • Chinese medicine prescription • Cautions and contraindications • Level of evidence • Prognosis 	<p>Assessment of TCM psychiatry (sleep, memory disturbances including dementia, and psychosis (Dian Kuang)):</p> <ul style="list-style-type: none"> • Clinical signs • Physical examinations and tests • Imaging and investigations <p>Management of TCM psychiatry (sleep, memory disturbances, psychiatric disorders, psychosis (Dian Kuang)):</p> <ul style="list-style-type: none"> • Moxibustion • Cupping • Gua sha • Tui na • Electro acupuncture • Laser acupuncture
9.	<p>Disorders of TCM psychiatry (neuraesthesia, anxiety and classical Chinese psychiatric disorders):</p> <ul style="list-style-type: none"> • Chinese and biomedical anatomy • Chinese medicine aetiologies • Chinese medicine pathogenesis • Clinical signs • Special testing • Imaging and investigations • Chinese medicine diagnosis • Biomedical diagnosis • Chinese medicine prescription • Cautions and contraindications • Level of evidence • Prognosis 	<p>Assessment of TCM psychiatry (neuraesthesia, anxiety and classical Chinese psychiatric disorders):</p> <ul style="list-style-type: none"> • Clinical signs • Physical examinations and tests • Imaging and investigations <p>Management of TCM psychiatry (hysteria, neuraesthesia , anxiety and depression):</p> <ul style="list-style-type: none"> • Moxibustion • Cupping • Gua sha • Tui na • Electro acupuncture • Laser acupuncture
10.	<p>Disorders of TCM psychiatry (depression and chronic fatigue syndrome):</p> <ul style="list-style-type: none"> • Chinese and biomedical anatomy • Chinese medicine aetiologies • Chinese medicine pathogenesis • Clinical signs • Special testing • Imaging and investigations • Chinese medicine diagnosis • Biomedical diagnosis • Chinese medicine prescription • Cautions and contraindications • Level of evidence • Prognosis 	<p>Assessment of TCM psychiatry (depression and chronic fatigue syndrome):</p> <ul style="list-style-type: none"> • Clinical signs • Physical examinations and tests • Imaging and investigations <p>Management of TCM psychiatry (miscellaneous psychiatric disorders, chronic fatigue syndrome and dementia):</p> <ul style="list-style-type: none"> • Moxibustion • Cupping • Gua sha • Tui na • Electro acupuncture • Laser acupuncture
11.	<p>Miscellaneous disorders (addictions including narcotics, alcohol and nicotine):</p> <ul style="list-style-type: none"> • Chinese and biomedical anatomy • Chinese medicine aetiologies • Chinese medicine pathogenesis 	<p>Assessment of miscellaneous disorders (addictions including narcotics, alcohol and nicotine):</p> <ul style="list-style-type: none"> • Clinical signs • Physical examinations and tests • Imaging and investigations

	<ul style="list-style-type: none"> • Clinical signs • Special testing • Imaging and investigations • Chinese medicine diagnosis • Biomedical diagnosis • Chinese medicine prescription • Cautions and contraindications • Level of evidence • Prognosis 	Management of miscellaneous disorders (addictions including narcotics, alcohol and nicotine): <ul style="list-style-type: none"> • Moxibustion • Cupping • Gua sha • Tui na • Electro acupuncture • Laser acupuncture
12.	Miscellaneous disorders (HIV/AIDS): <ul style="list-style-type: none"> • Chinese and biomedical anatomy • Chinese medicine aetiologies • Chinese medicine pathogenesis • Clinical signs • Special testing • Imaging and investigations • Chinese medicine diagnosis • Biomedical diagnosis • Chinese medicine prescription • Cautions and contraindications • Level of evidence • Prognosis 	Assessment of miscellaneous disorders (HIV / AIDS): <ul style="list-style-type: none"> • Clinical signs • Physical examinations and tests • Imaging and investigations Management of miscellaneous disorders (HIV / AIDS): <ul style="list-style-type: none"> • Moxibustion • Cupping • Gua sha • Tui na • Electro acupuncture • Laser acupuncture
13.	Miscellaneous disorders (obesity): <ul style="list-style-type: none"> • Chinese and biomedical anatomy • Chinese medicine aetiologies • Chinese medicine pathogenesis • Clinical signs • Special testing • Imaging and investigations • Chinese medicine diagnosis • Biomedical diagnosis • Chinese medicine prescription • Cautions and contraindications • Level of evidence • Prognosis 	Assessment of miscellaneous disorders (obesity): <ul style="list-style-type: none"> • Clinical signs • Physical examinations and tests • Imaging and investigations Management of miscellaneous disorders (obesity): <ul style="list-style-type: none"> • Moxibustion • Cupping • Gua sha • Tui na • Electro acupuncture • Laser acupuncture
14.	Non-Teaching /Practical Exam Week 1. Note that make-up classes may be scheduled in this week.	
15.	Non-Teaching /Practical Exam Week 2. Note that make-up classes may be scheduled in this week.	
16.	Final Exam Week 1 Please refer to your Campus Timetable for the exact time and day of the final exam	
17.	Final Exam Week 2 Please refer to your Campus Timetable for the exact time and day of the final exam
