

## SUBJECT OUTLINE

Subject Name:

**Chinese Clinical Medicine 2**

Subject Code:

**CMAC223**

### SECTION 1 - GENERAL INFORMATION

<b>Award/s:</b>	Bachelor of Health Science (Acupuncture)	<b>Total Course Credit Points:</b>	128	<b>Level:</b>	2 <sup>nd</sup> Year
<b>Duration:</b>	1 Semester				
<b>Subject Coordinator:</b>	Dr Li Liao (Melbourne campus)				
<b>Subject is:</b>	Core	<b>Subject Credit Points:</b>	4		

#### Student Workload:

<b>No. timetabled hours per week:</b>	<b>No. personal study hours per week:</b>	<b>Total hours per week:</b>
<b>6</b>	<b>4</b>	<b>10</b>

#### Delivery Mode:

Face to Face      2 x 2 hour lectures      2 x 1 hour tutorials  
(On campus)

Full Time

Part Time

**Pre-requisites:** BIOC211, CMAC211, CMAC212

**Co-requisites:** Nil

#### Special Resource Requirements:

Closed-toe leather footwear

Endeavour College approved Acupuncture Kit

Two bath-sheet sized towels per student (Clinic towels must not be used)

### SECTION 2 – ACADEMIC DETAILS

#### Subject Rationale

In this subject the clinical concepts, skills and judgements associated with traditional Chinese medicine internal medicine are presented. Learning initially focuses on a comparison of key disorders that are considered from both a Chinese medicine and biomedical perspective. Symptoms, signs, clinical assessments, investigations, and levels of practice evidence lead discussion around treatment prescription, prognosis and the practical acupuncture sessions where techniques are applied. By subject conclusion a holistic understanding of traditional Chinese medicine internal medicine will have been developed.

## Learning Outcomes

1. Describe TCM internal medicine conditions, and compare with the biomedicine classification of internal diseases.
2. Identify and interpret key data necessary to make an accurate Chinese internal medicine diagnosis.
3. Compare and contrast pattern differentiations, treatment principles, aetiology, and pathogenesis of various internal diseases.
4. Apply pattern differentiation to a variety of case studies.
5. Develop and accurately apply a treatment plan appropriate to the Chinese medicine diagnosis.
6. Demonstrate appropriate work, health and safety skills during practical application of acupuncture and auxiliary technical skills.
7. Evaluate patient needs and modify practices, showing due respect for privacy, cultural sensitivity, and ethical practice in line with the CMBA Code of Conduct.

## Assessment Tasks

Type	Learning Outcomes Assessed	Session Content Delivered	Due	Weighting
<b>Continuous Skill Development</b> (80% attendance and active participation required)	1-7	1-26	Sessions 1-26	Pass/Fail
<b>Written Assignment</b> (2000 words)	1-5	1-12	Week 7	40%
<b>Final Written Exam</b> (2 hours)	1-5	1-26	Final Examination Period	60%
All written assessments and online quizzes are due at 11:55 p.m. and submitted through the LMS
