

SUBJECT OUTLINE

Subject Name:

Subject Code:

Chinese Medicine - Acupuncture Clinical Studies 7 CMCS421

SECTION 1 – GENERAL INFORMATION

Award/s:

Bachelor of Health Science (Acupuncture)

Total course credit points:

128

Level:

4th Year

Duration:

1 Semester

Subject Coordinator: Dr David Schievenin (Adelaide Campus)

Subject is: Core

Subject Credit Points: 6

Student Workload:

No. timetabled hours per week:	No. personal study hours per week:	Total hours per week:
9	5	14

Delivery Mode:

Face to Face

1 x 9 hours clinical practicum 117 total hours

Intensive

Details: Summer school intensive clinic is offered for 6 weeks with 6 x 3.5hrs per week.
Progressive clinical assessments are conducted in clinic at the end of Weeks 3 and 6.
Case studies will be due to be uploaded by the Sunday end of Weeks 3 and 6.

Full Time

Part Time

Pre-requisites: CMCS411, CMPR411, CMAC411

Co-requisites: CMAC421, SOCH311

Special resource requirements:

Details: Working with Children Check (varies by State)
Current HLTAID003 Provide First Aid Certificate
Endeavour College approved attire
Endeavour College Teaching Clinic Handbook
Mandatory online clinic induction
Endeavour College approved Acupuncture Kit containing the following items:

- Thermometer,
- Sphygmomanometer,
- Stethoscope,
- Timing Device,
- Otoscope,
- Penlight,
- Reflex Hammer,
- Measuring Tape,
- Endeavour White Clinic Coat

SECTION 2 – ACADEMIC DETAILS

Subject Rationale

The CMCS421 subject provides students with clinical practice experience. Each clinic student is expected to professionally manage clients as they attend to their clinical rounds. Supervisors expect students to manage the consultation process and provide them with an accurate final diagnosis, prognosis and treatment for approval. By subject conclusion clinic students will have developed further confidence in clinically managing clients.

Learning Outcomes

1. Consistently apply professional Chinese medicine knowledge and skill from questioning, clinical investigations (eg. tongue and pulse, TCM diagnosis, principles of treatment and prescription, prognosis, to the application of identified treatment.
2. Consistently apply outstanding skills in the application of acupuncture, moxibustion and allied acupuncture techniques in consultation with client and specific to their requirements.
3. Consistently apply appropriate professional, ethical and legal requirements and/or considerations to clinic practice and management, ensuring adherence to record keeping and infection prevention and control guidelines when implementing strategies to ensure quality assurance and risk management in clinic practice.
4. Compare and contrast various acupuncture treatments appropriate to individual cases.
5. Develop a coherent argument for the utilisation of specific acupuncture treatments sourced from research and classical texts for individual cases to improve overall treatment efficacy and prognosis.
6. Apply safe and effective acupuncture treatments.
7. Critically evaluate the outcome of each individualised treatment based on follow-up feedback from the client.
8. Communicate effectively with clients, their carers and families ensuring client involvement in structuring a treatment plan in managing their presenting health issue, identifying any risks and benefits of each option to allow informed decision making.

Assessment Tasks

Type	Learning Outcomes Assessed	Week Content Delivered	Week Due	Weighting
Attendance (100% attendance is required)	N/A	N/A	1-13	Pass/Fail
Progressive Clinical Assessment Mid Semester Review (rubric-based)	1-8	1-6	7 (based on weekly observations)	20%
2 Case Studies (2000 words each, suitable for publication)	2,7	1-13	Sunday following weeks 6, 13	30%
Progressive Clinical Assessment (rubric-based)	1-8	7-13	13 (based on weekly observations)	50%

The overall pass rate for this subject is 50%.
 Additionally students must pass the final Progressive Clinical assessment with a mark not less than 50%
