Subject Name: Point Classification and Prescription  
Subject Code: CMAC212

SECTION 1 - GENERAL INFORMATION

Award/s: Bachelor of Health Science (Acupuncture)  
Total Course Credit Points: 128  
Level: 2nd Year  
Duration: 1 Semester  
Subject Coordinator: Dr Emma Iwinska (Brisbane campus)  
Subject is: Core  
Subject Credit Points: 2  

Student Workload:

<table>

Delivery Mode:

Face to Face (On campus):

1 x 2 hour lecture  
1 x 1 hour practical

Facilities:

Full Time  
Part Time  

Pre-requisites:
CMAC121, CMPR121, BIOH122

Co-requisites:
CMAC211

Special Resource Requirements:

Closed-toe leather footwear  
Endeavour College approved Acupuncture Kit  
Two bath-sheet sized towels per student (Clinic towels must not be used)

SECTION 2 – ACADEMIC DETAILS

Subject Rationale

Point Classification and Prescription examines the TCM rationale for the selection and usage of key acupuncture points in relation to TCM syndromes and diagnoses. Students investigate and needle points following differentiation via point categories, therapeutic indications and the application of various practical approaches. By subject conclusion students will be capable of determining and making a case for acupuncture point prescriptions in preparation for Clinical Practicum.

Learning Outcomes

1. Demonstrate skill at formulating clinically valuable acupuncture point prescriptions.
2. Discuss and demonstrate point selection in reference to Chinese medicine diagnostic methods, point categories and therapeutic indications.
3. Formulate, discuss and demonstrate the processes, practices and theories relevant to the construction of a valuable final point prescription.
4. Demonstrate standard screening approaches necessary to either caution or exclude acupuncture needling, including the demonstration of safe needling practices.
5. Define, interpret and demonstrate cultural sensitivity and ethical considerations within all theoretical and practical sessions.

| 7. | • Confluent point of the Eight Extraordinary Channels  
• Case studies focusing on eight extra channel pathologies | Demonstration and supervised practice of CM diagnostic methods and acupuncture applied to manage  
• Jing Luo pathologies of the eight extra channels  
• Eight confluent points |
| **NON-TEACHING WEEK** (note that make-up classes may be scheduled in this week) |  
**Semester 1** - This aligns with the week after Easter so it may fall between weeks 6 to 8  
**Semester 2 & Online students** - The non-teaching week falls between Weeks 7 and 8 |
| 8. | • Points, pathologies and prescriptions of the lung, spleen and stomach  
• Selecting points and prescriptions according to Jing Luo theories and TCM patterns  
• Case studies | Demonstration and supervised practice of CM diagnostic methods and acupuncture applied to manage  
• Channel and organ pathologies of the lung, spleen and stomach |
| 9. | • Points, pathologies and prescriptions of the small and large intestine  
• Selecting points and prescriptions according to Jing Luo theories and TCM patterns  
• Case studies | Demonstration and supervised practice of CM diagnostic methods and acupuncture applied to manage  
• Channel and organ pathologies of the small and large intestine |
| 10. | • Points, pathologies and prescriptions of the heart, pericardium and San Jiao  
• 13 Ghost points of Sun Si Mao  
• Window of Heaven points  
• Selecting points and prescriptions according to Jing Luo theories and TCM patterns  
• Case studies | Demonstration and supervised practice of CM diagnostic methods and acupuncture applied to manage  
• Channel and organ pathologies of the heart, pericardium and San Jiao  
• Incorporating the use of 13 Ghost and Window of Heaven points |
| 11. | • Points, pathologies and prescriptions of the liver and gallbladder  
• Selecting points and prescriptions according to Jing Luo theories and TCM patterns  
• Case studies | Demonstration and supervised practice of CM diagnostic methods and acupuncture applied to manage  
• Channel and organ pathologies of the liver and gallbladder |
