Subject Name: History and Development of Traditional Chinese Medicine
Subject Code: CMPR311

SECTION 1 – GENERAL INFORMATION

Award/s: Bachelor of Health Science (Acupuncture)
Total course credit points: 128
Level: 4th Year
Duration: 1 Semester
Pre-requisites: NATE121, CMCS221, CMAC223
Co-requisites: Nil

Student Workload:
No. timetabled hours per week: 3
No. personal study hours per week: 2
Total hours per week: 5

Delivery Mode:
- Face to face
  - 3 hour lecture
- Full Time
- Part Time

Subject Coordinator: Dr Li Liao (Melbourne campus)
Subject Credit Points: 2

SECTION 2 – ACADEMIC DETAILS

Subject Rationale
This subject explores the origins and historical development of Traditional Chinese Medicine (TCM). Spanning from the Shang dynasty, students will be introduced to key periods, people and works that have influenced current practice. By subject conclusion students will be capable of comparing and contrasting different schools of thought for the purpose of making a more informed Chinese medicine diagnosis.

Learning Outcomes
1. Outline and discuss the key periods of Chinese medicine development from the Shang Dynasty to the establishment of the Peoples Republic of China.
2. Identify and discuss the key contributions of major figures in Chinese medical history.
3. Identify and discuss the key contributions of major Chinese medical texts with particular reference to the Huang Di Nei Jing, Shang Han Lun, Wen Bing and the Jin Gui Yao Lue.
4. Explain and evaluate the contributions of the major TCM schools of thought and how they relate to current Chinese medicine practice.
5. Discuss the spread and development of TCM in East Asia, Europe, America and Australia.
