**Delivery Mode:**

Face to Face (On campus)

1 x 3 hour clinical practicum

Intensive Delivery (Summer School)

Contact hours are delivered over 6 weeks with 1 x 6.5 hour days delivered per week

Content: Clinical practicum

Assessment: Attendance - Weeks 1-6; Mid-semester Progressive Clinical Assessment - Week 3; Reflective Logs - Weeks 3 and 5; Final Progressive Clinical Assessment - Week 6

**Pre-requisites:** MSTC121, MSTF121

**Co-requisites:** Nil

**Special Resource Requirements:**

- HLTAID003 Provide first aid (VET unit of competency)
- LMS-based clinic induction and quiz
- Professional Dress Standards as described by [Wellnation Clinic Student Handbook](#)
- [Wellnation Clinic Student Handbook](#)
- WWCC (or its equivalent) for the location in which subject is undertaken as per [Working with Children Check Policy](#)

---

### SECTION 2 – ACADEMIC DETAILS

**Subject Rationale**

This subject provides students with supervised clinical practice in delivering myotherapy techniques such as neuromuscular, myofascial release and stretching relevant to postural dysfunctions of the body. These skills will be utilised to care for a range of clients within a supervised clinic environment. It aims to consolidate and support the students’ development of myotherapy practice while continuing to develop and apply their knowledge, proficiencies and desirable personal attributes gained from previous learning experiences.

**Learning Outcomes**

1. Make use of patient reported outcome measures and myotherapy standardised documents for subjective data gathering and recording of information.

CRICOS # 00231G  
MSTC212 Myotherapy Clinical Practicum 1  
Australian College of Natural Medicine Pty Ltd (ACNM) trading as Endeavour College of Natural Health
2. Perform appropriate physical examinations relevant to the presenting case using the myotherapy examination order.
3. Choose appropriate myotherapy treatment techniques to meet client goals.
4. Communicate effectively and appropriately with clients, the general public and the health care team in a clinical setting.
5. Demonstrate ethical behaviour with all clients presenting for treatment and follow all aspects of informed consent.
6. Demonstrate proficiency with all aspects of management and administration of a professional myotherapy practice.
7. Summarise experiences in clinic using reflective writing techniques.

### Assessment Tasks

### Subject Content

<table>
<thead>
<tr>
<th>Week</th>
<th>Clinical Practicum</th>
</tr>
</thead>
</table>
| 1.   | **Introduction** *(Subject Outline / Subject Aims / Assessment / Teaching Resources)*  
      Clinic orientation  
      Assessment and treatment technique review for relaxation and seated massage |
| 2.   | Client assessment, including postural assessment  
      Incorporating myotherapy techniques into treatment  
      Mock clinic - putting consultation and treatment into practice |
| 3-13. | Clinic practicum extends from Week 3 to Week 13 with a one week non-teaching week (in Semester 1 this week aligns with the week after Easter so it may fall between Weeks 6 to 8, in Semester 2 it falls between Weeks 7 & 8). Make-up clinics may be scheduled during the non-teaching week.  
      Students begin conducting relaxation massage sessions from Week 3, while a rotating roster of seated massage will occur during the subject from Week 4. Students will be scheduled to complete a total of twelve 30-minute seated massage sessions during the semester, though client numbers may alter the total number of sessions |
Mid-semester reviews are conducted in Weeks 7-9 and students are presented with both written and verbal feedback about their performance in clinic.

Final reviews of clinical practicum are conducted in Week 13 and students are presented with further written and verbal feedback regarding their performance in clinic in relation to specified rubrics.

In clinical practicum students are evaluated on their ability to apply their knowledge and skills in a safe, professional manner. Therefore students should note that, although helpful, previous success in academic subjects does not guarantee success in clinical practicum.

During myotherapy clinical practicum students will practice under supervision

- Relaxation massage (1 hour bookings) and seated massage (30 minute bookings)
- Conducting clinical consultations and observations
- Using good client-practitioner communication
- Demonstrating effective case taking and clinical examination skills
- Developing individualised treatment plans
- Identifying and completing appropriate referral
- Presenting to supervisor to obtain approval for treatment plan
- Office management skills and reception duties
- Observing all clinic policies and procedures
- Participating in debriefing sessions at the conclusion of each clinical practicum to identify any important issues
